Once again, Erik Christiansen & Mike Gibault will doing "Live Text" from Seed 9! While similar to twitter updates (which they will also be doing), Live Text allows more detailed description of what's happening.

The link for live text is:

<http://www.rallydata.com/ColdFusion/LiveTextDisplay.cfm>

On twitter they will be tweeting the top 7 overall after each stage using the [@RallyDataScores](#) User ID and the "#rallyscores" hash tag.

There's no excuse to miss any of the action. Follow it on November 6th, 2011!
